WONDERS FROM THE FULL STACK FEST WEBSITE
Hello there!

We are Swwwweet.

We are a small web design studio based in Barcelona, Spain, and we create responsive sites for small businesses and startups. Interested? You can check some of our favourite projects below and you can contact us on hola@swwwweet.com.

MAKING A LOT OF THINGS

There's a satisfaction in creating something.
Taking a concept, chat or sketch and being able to implement something that people can interact with is one of the wonderful things about the area that we work in.

I'll talk about what it means to be creative, it's benefits, and how we can optimise our approaches to building software & projects to make the most of ourselves.

Together, we'll explore how to make things that are able to be used to build something bigger.

ABOUT BEN

Ben is a freelance developer based in Oxford. He's worked on a wide range of projects - and is particularly into data, the web, and visualisation. He enjoys challenging the way that we interact with technology, and is known for interactive demos.
